

Floor Mat Care & Cleaning Guidelines

The cleaning guidelines below are standard industry methods for cleaning mats. Frequency of cleaning should be based on the specific needs of your business, traffic flow, season, and climate. Failure to follow these guidelines will void all warranties and may result in damages to your mat, logo, or surfaces underneath.

PLEASE READ

Cleaning Method	Spot Clean	Wipe with Damp Cloth	Vacuum	Hose/Rinse	Hand Wash	Professional Launder	Shake Out	Sweep
Frequency	As needed	As needed	Daily	Monthly	As needed	As needed	Weekly	As needed

Eversoft / Landing Pad	✓	✓					✓	
Fatigue Shield	✓	✓						
Front Runner	✓	✓		✓			✓	
Molded Vinyl (Floor)	✓	✓		✓			✓	
Nylon Dye Rubber	✓		✓			✓	✓	
Nylon Dye Vinyl	✓		✓				✓	
Olefin	✓		✓				✓	

All cleaning methods described above use water or a mild neutral cleaning solution.

It is important to clean both sides of your mat regularly.

USE CAUTION when vacuuming mats to avoid catching and/or tearing the borders or edges.

Allow mats to completely DRY before next use.

All mats are guaranteed against manufacturer defects for one year from delivery under normal conditions of usage and when proper mat care is practiced using the methods described above. Warranty excludes all mats produced/sold for short term usage and/or promotional mats, including POP.

WARNING:

THE FOLLOWING CLEANING METHODS WILL VOID ALL GUARANTEES AND WARRANTIES:

DO NOT USE industrial cleaners containing ammonia or alcohol for any cleaning application.

DO NOT USE hand sanitizer to clean mats.

DO NOT USE bleach to clean mats.

DO NOT USE pressure washer or industrial machinery to clean mats.
